O R D E R

On May 10, 2004, BellSouth Personal Communications, LLC and BellSouth Mobility, LLC, d/b/a Cingular Wireless - Kentucky ("Applicant") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a monopole antenna tower not to exceed 199 feet in height, with attached antenna, to be located at State Road 1534, Ferndale, Bell County, Kentucky. The coordinates for the proposed facility are North Latitude 36° 42' 35.94" by West Longitude 83° 40' 58.07".

The Applicant has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to 807 KAR 5:063, the Applicant has notified the County Judge/ Executive of the proposed construction. No Federal Aviation Administration or Kentucky Airport Zoning Commission applications seeking approval for the proposed construction were filed. Such applications are only necessary for structures constructed at a height in excess of 200 feet, and the proposed structure for this site will be 199 feet and does not exceed this threshold height.

The Applicant has filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited any comments and informed the recipients of their right to request intervention. To date, no public comments have been filed with the Commission.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicant has demonstrated that a facility is necessary to provide adequate utility service and therefore a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicant should notify the Commission if it does not use this antenna tower to provide service in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the

proper practices, including removal of the unused antenna tower, which should be observed by the Applicant.

IT IS THEREFORE ORDERED that:

1. The Applicant is granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility consists of a monopole antenna tower not to exceed 199 feet in height, with attached antenna, and is to be located at State Road 1534, Ferndale, Bell County, Kentucky. The coordinates for the proposed facility are North Latitude 36° 42' 35.94" by West Longitude 83° 40' 58.07".

2. The Applicant shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 24<sup>th</sup> day of June, 2004.

By the Commission
